

Symposium B:
Battery and Energy Storage Devices
 (E-MRS 2018 - Fall Meeting)
 September 17-20, 2018
 Warsaw University of Technology, Poland

Dear Colleagues,

The European Materials Research Society (E-MRS) was established in 1983 through the initiative of individual European Material Scientists. The Int'l Symposium (Letter B) on **Battery and energy storage devices** will be held in Warsaw University of Technology, Poland during September 17-20, 2018 .

We cordially invite you to participate in this conference. Through this conference, you can present your latest research results and exchange experiences with other experts in the field of Battery and Energy Storage devices. Please submit your abstract through the www.european-mrs.com

Call for Papers	
Submission Due	May 21, 2018
Field	<i>Battery and energy storage devices</i>
Conference Website	https://www.european-mrs.com/battery-and-energy-storage-devices-emrs
Publication	Journal of Power Sources Journal of Electrochemical Society

The symposium is structured in nine different sections covering the following topics:

- ✓ Lithium ion cells
- ✓ Non lithium technologies
- ✓ Flow-batteries
- ✓ Supercapacitors
- ✓ Battery systems
- ✓ Automotive and mobile applications
- ✓ Stationary battery system
- ✓ Integrated systems
- ✓ LCA electrochemical storage

Publication and Presentation

All the accepted papers can be published in *Journal of Power Sources* and *Journal of Electrochemical Society*.

You're welcome to submit abstracts for presentation. The Best Presentation Award is presented in recognition of the best student oral or poster presentation in each symposium.

Symposium Organizers:

Claudia D'URSO, CNR-ITAE (Italy)

Juergen Garche, Ulm University, Chemistry Department (Germany)

Luis Gerardo ARRIAGA, CIDETEQ (Mexico).
